VIGY 10 Mk III

Day/night naval surveillance system

The VIGY 10 Mk III is a day/night naval surveillance system permitting:

- 24 hours surveillance
- Navigation and piloting aid
- Assistance in search-and-rescue operations
- Surveillance of sensitive areas
- Improved navigation safety

Compact and modular, the VIGY 10 Mk III can be fitted on a wide range of sea-going and freshwater craft, including patrol boats, coast guards, police boats, etc.

Key features

- Compact and lightweight day/night surveillance platform (< 30kg)
- Operator console, control panel and joystick easily integrated in the ship bridge
- All sensors protected against water and salt spray
- Fully panoramic stabilized line of sight

Main characteristics

- Sensors:
 - Thermal imager 3-5 μ m
 - Color TV camera with x25 continuous zoom
- Platform:
 - Elevation travel: $\pm 35^\circ$
 - Bearing travel: n x 360 $^\circ$
